EVERYTHING YOU NEED

Powerful Modules. One Unified Platform.

ApexTime Cloud delivers a complete suite of tools to streamline every aspect of your institution's operations — from hire to retire, admission to graduation.

Employee Management

Manage employee profiles, codes, departments, designations, categories, joining dates and credentials in one place.

Academic Structure

Define programmes, courses, semesters, divisions and batches. Flexible hierarchy fits any school or college structure.

Attendance & Timesheets

Real-time timesheet tracking with GPS-based punch-in/punch-out, selfie verification, and device integration.

Work Shifts

Create flexible work shift schedules — set start/end times, grace periods, and late mark rules per shift.

Leave Management

Configure leave types, quotas and approval chains. Employees apply, managers approve — all digitally tracked.

Approval Workflows

Centralised approval hub for overtime, comp-off, and attendance corrections. Status tracking at every step.

Reports & Analytics

Attendance reports, leave summaries and custom exports. Filter by date, department and employee instantly.

Announcements

Broadcast institution-wide or targeted announcements visible to staff and teachers on their portal.

Multi-Organisation

Super-admin manages multiple schools/tenants from a single dashboard. Perfect for education groups and trusts.

STAFF MANAGEMENT

Smart HR Built for Schools

Handle every step of the employee lifecycle with precision — from onboarding to daily attendance to leave management.

Attendance System

GPS-verified, selfie-authenticated punch-in/out tied directly to biometric devices or the employee's mobile browser.

- ✓ Real-time GPS location capture on every punch
- ✓ Mandatory selfie photo for punch verification
- ✓ Biometric device integration (fingerprint/face)
- ✓ Configurable work shifts with grace periods
- ✓ Late, absent & present auto-calculation
- ✓ Manual correction with approval workflow
- ✓ Comp-off management for extra work days
- ✓ Monthly timesheet view per employee

Leave Management

- Multiple configurable leave types (CL, SL, EL...)
- Per-employee leave quota tracking
- Multi-day leave range requests
- Approval / rejection with reason
- Leave balance auto-deduction
- Leave history per employee

BEYOND HR

Academics, Devices & Self-Service

A complete ecosystem — track students, manage hardware, and empower every employee with a personal portal.

Academic Structure Management

Define and manage your institution's complete academic hierarchy — programmes, courses, semesters, divisions, and batches — with full student enrolment tracking and batch filtering.

Employee Self-Service Portal

Every employee gets a personal dashboard — view schedule, punch attendance, apply for leave, and read announcements from any device.

GPS + Selfie Punch

Employees use their phone to punch in/out with live location and selfie — no physical device needed on the go.

Device Management

Register and monitor biometric attendance devices across multiple sites. Active device count visible on the admin dashboard.

Student Management

Maintain student profiles with admission numbers, batch assignments, contact info, and gender — fully searchable and filterable.

Institution Announcements

Publish notices and updates visible to staff instantly through the self-service portal. Keep everyone aligned.

Role-Based Access

Super admin, admin, teacher, and employee roles — each with precisely scoped permissions and dedicated views.

ENTERPRISE-GRADE TECH

Built to Scale. Secure by Design.

Modern, cloud-native architecture with containerised deployment and a secure multi-tenant data model.
